

NEWS YOU CAN USE!

Jodi Oldroyd of Richfield, Utah has an 8 year old son that according to her is "allergic to life!" Waylund has severe allergies and asthma.

For **6 years** he has woke up every night to take his **nebulizer treatment** for his breathing. The night that Jodi bought her Rainbow she stayed up for **9 hours cleaning** everything in her house. She said she took NoDoze to stay awake. A couple of nights later Jodi noticed that Waylund did not wake up for his nightly treatment. Being a mother she panicked and feared the worst. She was too afraid to go into his room to check on her son so she sent her husband. After a bit he didn't come out so she mustered up the courage to finally go in. **Waylund was sleeping soundly** and to their surprise was not even snoring as he normally did! They sat and watched him for over an hour with joy and amazement as their boy **slept peacefully through the night for the first time in 6 years!** Jodi tells us that since getting their Rainbow that Waylund hasn't gotten up once to use his nebulizer! He is finally gaining weight, is energetic and is acting like a normal boy. She was so amazed that she decided to join Rainbow to share this amazing machine with as many people she could! This once again reminds us why we do what we do and that the Rainbow is truly the most amazing machine on earth!
